

Chemistry Ch 6 STUDY GUIDE

Chemical Bonding

By now, you should know all the correct formats and all notebook work you need to do every chapter, so, I will not write this at the top of every study guide. REFER BACK to earlier study guides.

1. Secs. 6.1 and 6.2: Types of bonding, ionic and covalent (two main types), octet rule, electron dot structures (Lewis structures), multiple bonds, SKIP page 189 but do section review 2

2. Secs. 6.3 and 6.4: Ionic Bonding, metallic bonding

SKIP sec. 6.5 but **learn the geometries I give in class for the Main group Elements: 1-2-13-14-15-16-17-18**

Quizzes will be given to test your mastery and understanding of the vocabulary as you read and the CHAPTER MATERIAL Work section by section and you'll do just fine.

HOMEWORK
